Differential pressure switches for air, flue and exhaust gases

Pressure switch for gas

LGW...A4 LGW...A4/2

5.08

Technical description

The differential pressure switch LGW... A4 is an adjustable differential pressure switch as per EN 1854 for automatic burner controls.

It is suitable for switching a circuit on, off or over on changes in actual pressure value relative to the set reference value.

The reference value (switching point) is adjusted on a setting wheel provided with a scale. The test nipple is integrated in metal housing as standard.

Application

Differential pressure monitoring in firing, ventilation and air-conditioning systems. Differential pressure switches: suitable for air, flue and exhaust gases.

Pressure switches: suitable for gases of families 1,2,3 and other neutral gaseous media.

Approvals

EC type test approval as per EC Gas Appliance Directive:

LGW...A4 CE-0085 AQ 0673 LGW...A4/2 CE-0085 AQ 0673

EC type test approval as per EC Pressure Equipment Directive:

LGW... CE0036

Pressure switch Class "S" as per EN 1854.

Approvals in other important gasconsuming countries.

Functional description

Differential pressure switch in pressure and vacuum ranges. The differential pressure acts via the diaphragmagainst the force of the setting spring on the microswitch. The pressure switch operates without any auxiliary power.

Differential pressure switch LGW...A4

The switching mechanism responds to differential pressure which acts between the two pressure chambers. It switches an electric circuit on, off or over when the set reference value is exceeded or undershot.

Overpressure switch LGW...A4 Pressure connection G 1/4

Single-acting pressure switch in the overpressure range.

The switching mechanism responds if there is an overpressure which switches on, off or over to an electric circuit if the set reference value is exceeded or undershot.

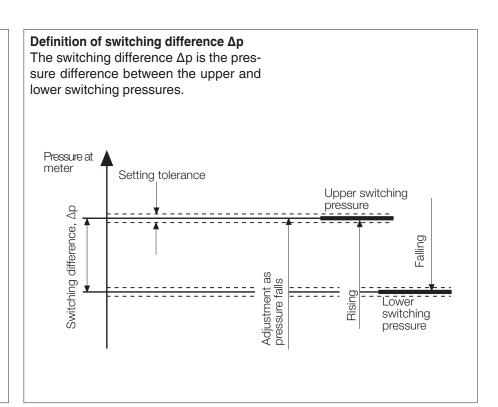

The pressure connection G 1/8 may not be closed.

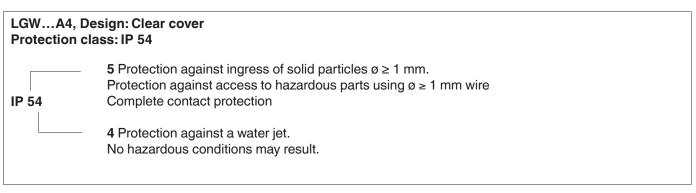

Vacuum switch LGW...A4 Pressure connection G 1/8

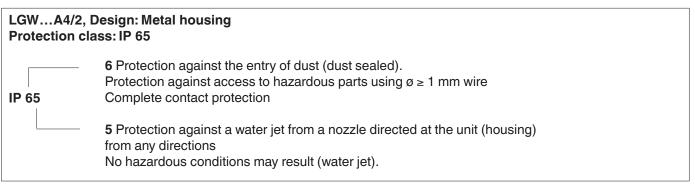

Single-acting pressure switch in the low pressure range. The switching mechanism responds to vacuum which switches an electric circuit on, off or over when the set reference value is exceeded or undershot.

The pressure connection G 1/4 may not be closed.

LGW...A4 switching function As pressure rises: 1 NC opens, 2 NO closes As pressure falls: 1 NC closes, 2 NO opens COM TOM NC COM NC COM

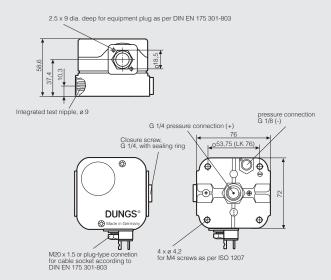

Specifications

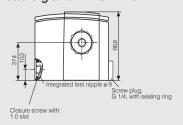

Max. operating pressure	LGW 3 A4 - LGW 150		500 mbar (50 kPa					
	LGW 3 A4/2 - LGW 150		500 mbar (50 kPa	,				
Pressure connection	P+: G 1/4 screw plug o	P+: G 1/4 female thread ISO 228 on centre of housing underside: gas or air P+: G 1/4 screw plug on side of housing: gas or air P-: G 1/8 female thread ISO 228 on side of housing underside: only air						
Measuring connection	Instrument gland integ	Instrument gland integrated in metal housing, ø 9						
Temperature range	Ambient temperature: Medium temperature: Storage temperature:	: -15 °C to +70 °C						
Materials	LGWA4 Housing base Hood Switch Diaphragms Switching contact	aluminum die casting Polycarbonate Polycarbonate NBR Standard: Ag Optional: Ag gold-plated (Au), suitable for DDC applications: 24 VDC; 0.02 A						
	LGWA4/2 Housing base Hood Switch Diaphragms Switching contact	Diecast aluminum Extrusion cast zinc, powder-coated Polycarbonate NBR Standard: Ag Optional: Ag gold plated (Au), Suitable for DDC applications: 24 VDC; 0.02 A

Electrical connection	Standard	at screw terminals via M20 x 1.5 cable gland						
	Special design	plug connection for line sockets as per DIN EN 175 301-803, 3-pin with protection contact						
Degree of protection	LGWA4 LGWA4/2	IP 54 as per IEC 529 (EN 60529), (transparent hood) IP 65 as per IEC 529 (EN 60529), (metal housing)						
Adjustment	Optionally adjustment	If pressure increases in vertical installation position. Optionally adjustment for rising or falling pressure possible on site. If installation position deviates, note change in switch point.						
Setting tolerance	·			ue and installation in vertica nent possible on site.				
Deviation	Permissible deviation of to EN 1854	position. Optionally, rising (♠) or falling (♣) adjustment possible on site. Permissible deviation of the set value ≤ ± 15 % in the service life test according to EN 1854						
Reference value setting device	Standard: blue Version "Y": Yellow							

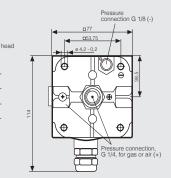

Dimensions [mm]

LGW... A4

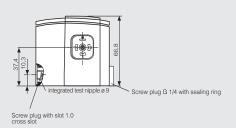

LGW... A4/2 with metal housing, cable gland M 20 x 1.5

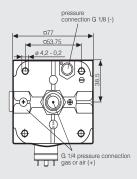

LGW... A4/2

with metal housing, plug-in connection for sockets accord. to DIN EN 175 301-803

Installation position

4 self-aligning pan-head screws M3x14 0.8 slot and 500

Standard installation position In case of deviations, observe the changes in switching point

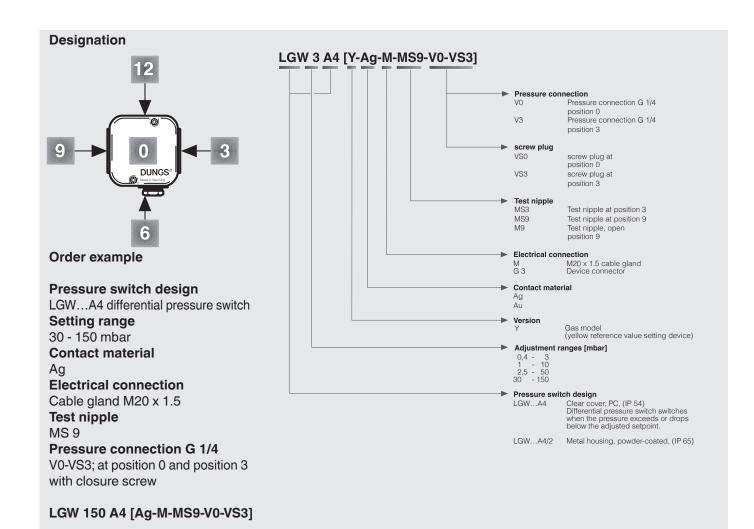

When installed horizontally, the pressure switch switches at a pressure higher by approx. 0.5 mbar

When installed horizontally overhead, the pressure switch switches at a pressure lower by approx. 0.5 mbar

When installed in an intermediate installation position, the pressure switch switches at pressure deviating from the set reference value by $\max. \pm 0.5$ mbar.

Accessories for LGWA4 pressure switch	Order No.
Kit: G3 equipment plug, 3-pin + E	219 659
Line sockets, 3-pin + E grey GDMW	210 318
G 1/4 test nipple and seal ring (1 x)	266 042
